

Restorative (filling) After Care Instructions

Jason Tanguay, DDS * Lindsey Hollern, DDS

MINT.

dental studio

After Care Instructions:

- * Some amount of soreness and tenderness is normal after restorative treatment. You may feel relief from taking the same medicine that you would for a headache.
- * You may have mild hot/cold sensitivity for a few weeks or feel slight changes in your bite. If your bite does not feel normal after a few days or sensitivity persists for more than a few weeks, please give us a call.
